Lorand Mihaly

💼 Experience

2019-11 - present

junior Python developer
Freelance
worked on various projects with Django, gaining useful experience in web development

2017-11 - 2019-11

Work and Travel
Australia
I spent time on a work and travel program in Australia, gaining useful insights about life and profession there. I had the opportunity to work with various businesses in transports & related fields

2013-09 - 2016-07

Logistics
Loxx Pan Europa
Worked at several of Loxx's Stuttgart departments dealing with a variety of tasks from foreign dispatch to planning and statistics, which I especially enjoyed, thus first started learning Python with an outlook on data analysis

2007-06 - 2013-09

Various
Europe
During this period I worked different delivery, install and assembly jobs in countries like Denmark, Norway and Germany and traveled intermittently

2004-06 - 2007-06

Liaison
Mastri GmbH
First time experience of the professional world by helping out Mastri, a Munich based string instruments company with their dealings in Reghin by setting up contacts, translating, assisting during meetings and some local administration

🎓 Education

2003-09 - 2007-06

Secondary School
graduated Math - Informatics in 2007 in Reghin- gained a certificate in Informatics

2015-11 - 2016-03

Master Python Programming
I started learning Python on online courses as it is very popular among data analysts and in the field of data science

2013-09 - 2016-07

"Robert Franck Schule", Ludwigsburg
located in south-west Germany, I attained my diploma here in Logistics and became certified by the German Chamber of Commerce as assistant manager

🎯 Summary

Experienced in a variety of fields, I am looking to put my passion for programming to use while continuously growing

2019-12 - 2020-03

Django 3- Full stack websites with Python 3

Besides learning how to use Python as a web framework, this Django course was a gateway to getting me accustomed to all the basic notions in and around front end development as well
